

STUDIO+ PERMITTING PACKAGE

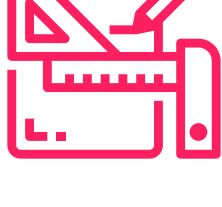

A full technical package for permitting departments and building professionals. Whether you want to work with us, hire a contractor or DIY your own container home, save yourself the worry and hassle by going with our incredibly affordable, fast, and safe Studio+ plans.

Get Permitted

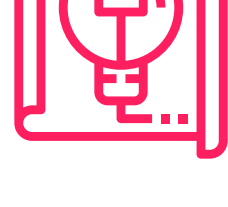

Architectural Drawings

A set of code-compliant drawings with the detail level of shop drawings and enough overall information to accurately plan cost, timeframe, and requirements.

Structural Calculations

A comprehensive collection of mathematical reports, justifying the structural viability of the Studio+ in various scenarios with environmental and structural variables.

Bonus Material

A supplemental information packet of helpful documents for dealing with building officials, putting together cost estimates, sourcing building materials, and more.

PLANNING MADE EASY

TALKING TO BUILDING AUTHORITIES

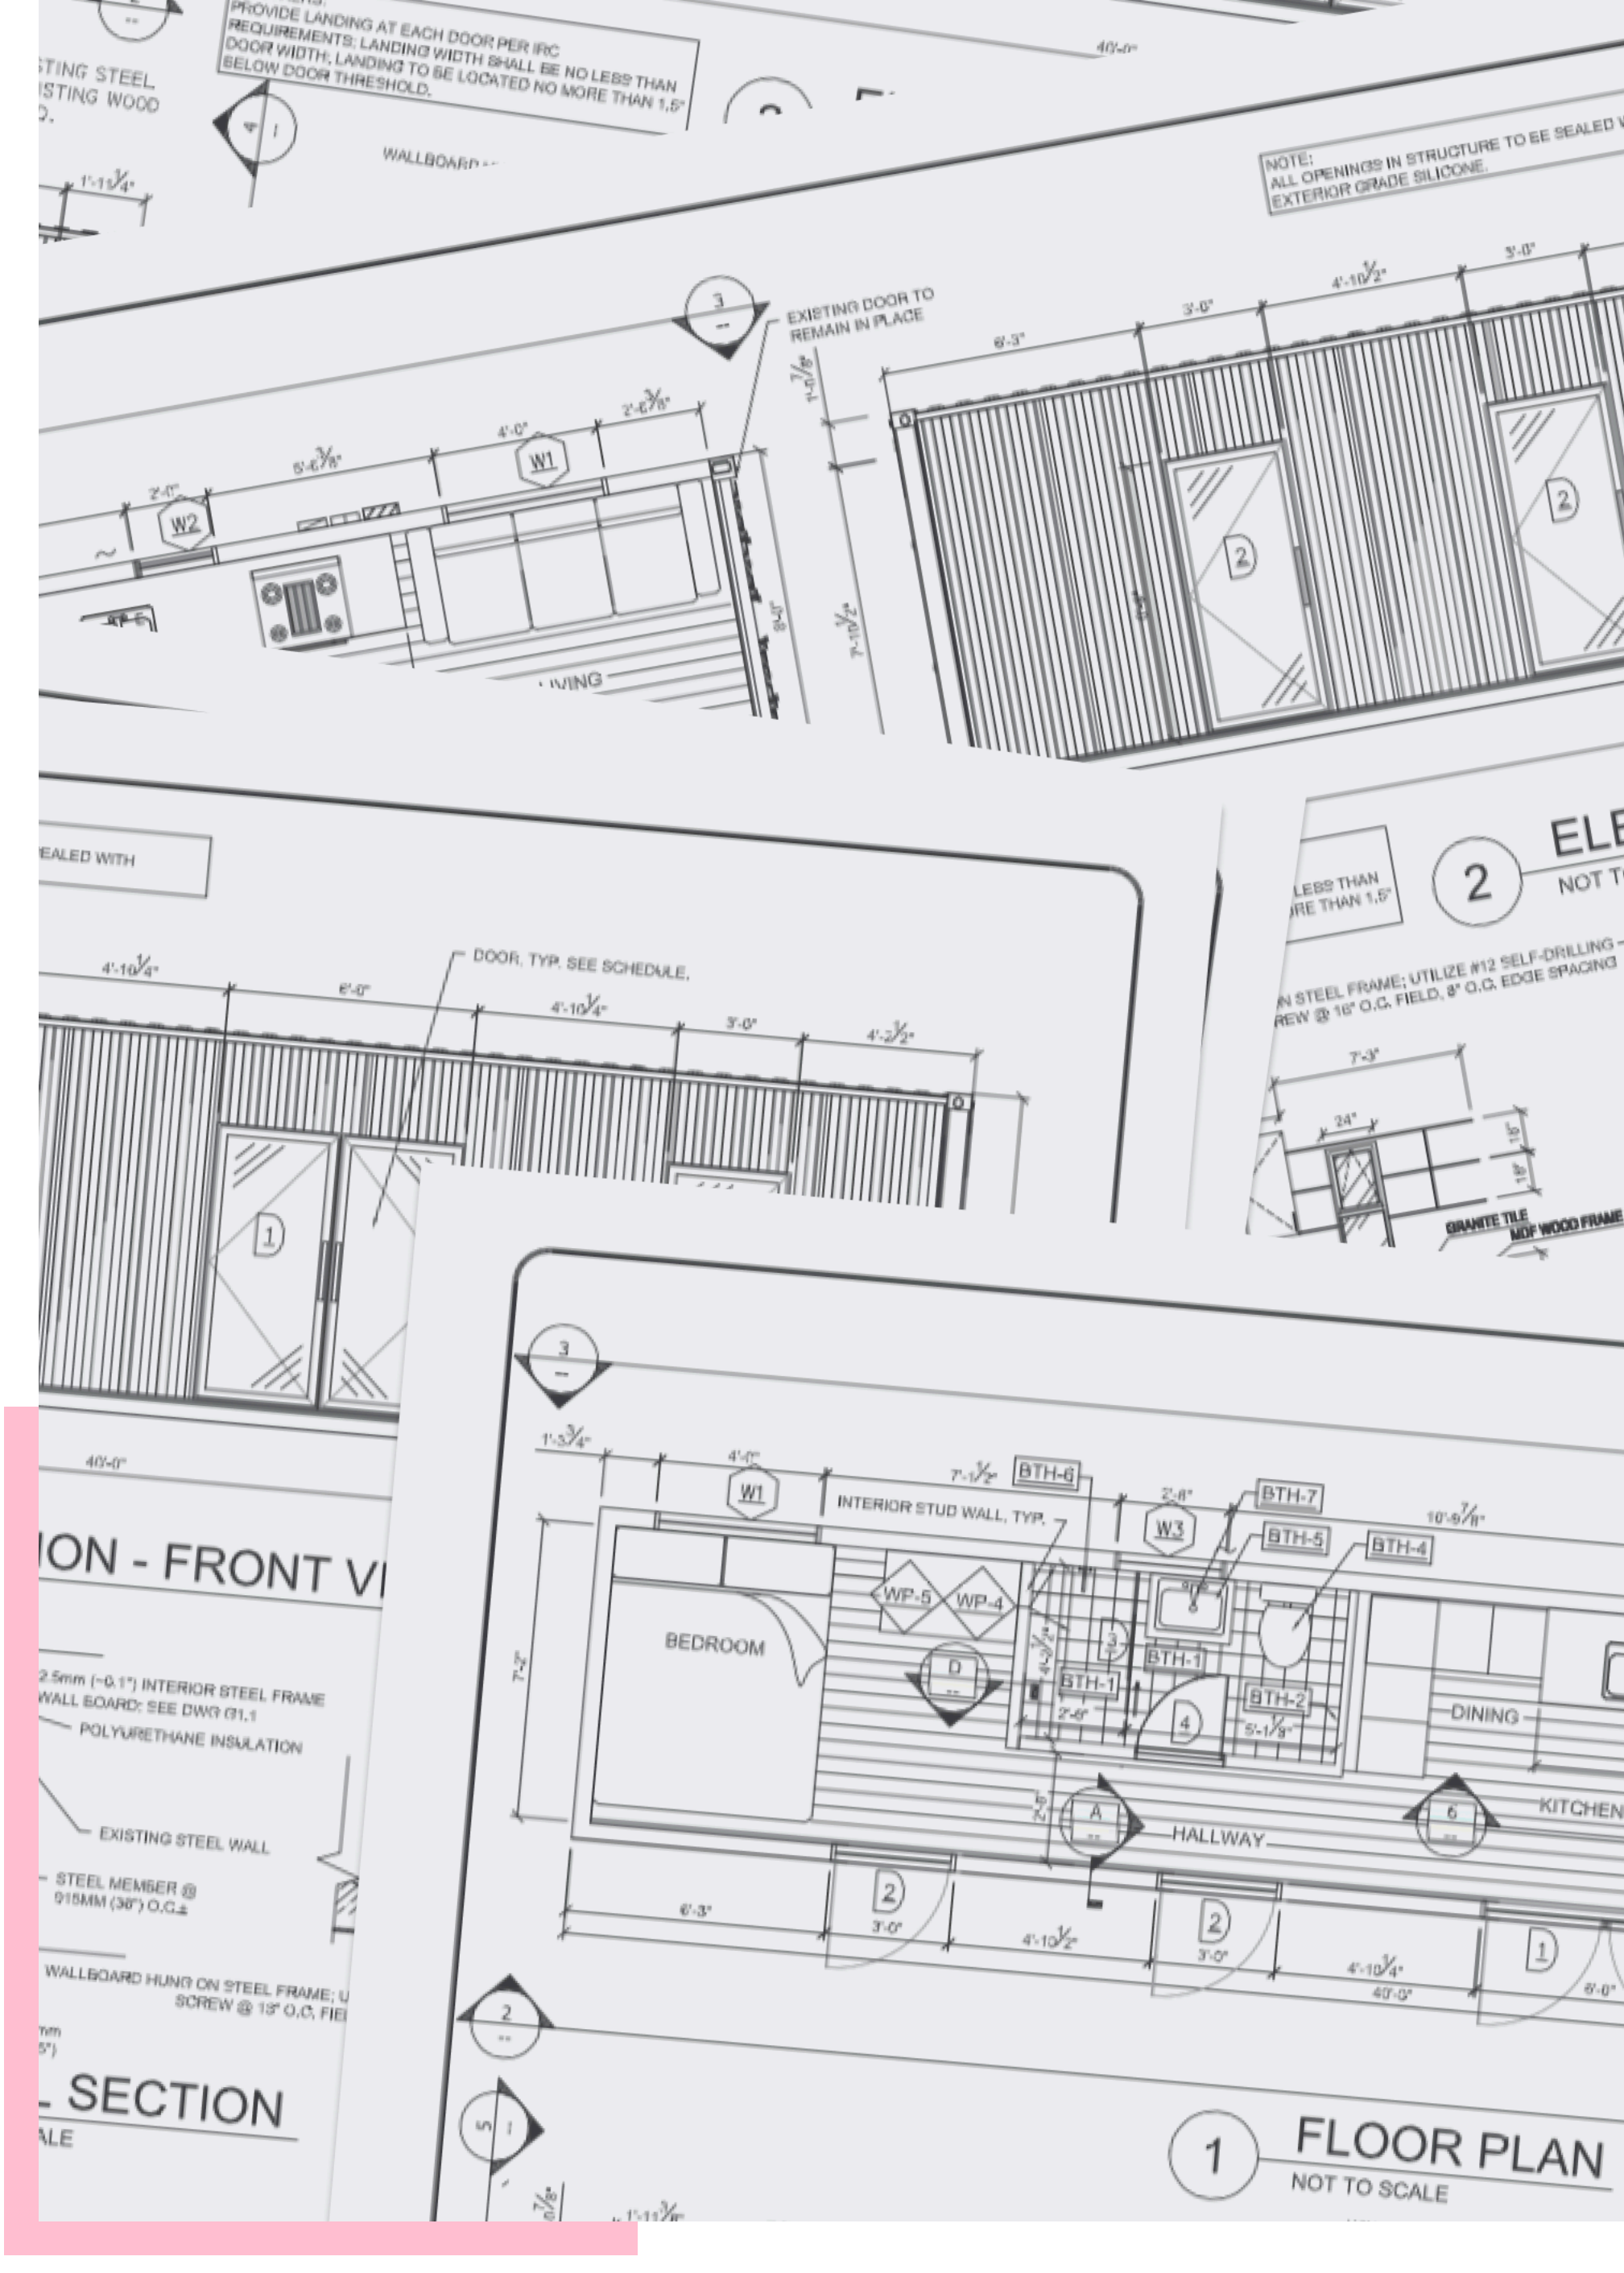

Use the Studio+ plan set to confidently start conversations with your local building officials, and quickly get the results you deserve.

SAVE THOUSANDS OF DOLLARS

A complete engineering blueprint package; not just a few drawings. Paying an engineer for the same level of engineering would cost over \$11k.

APPROVED BY THE “REAL WORLD”

Building Department and Expert Approved, meaning that you know you are going to be both comfortable and safe in your brand-new home.
